

# Church Building at

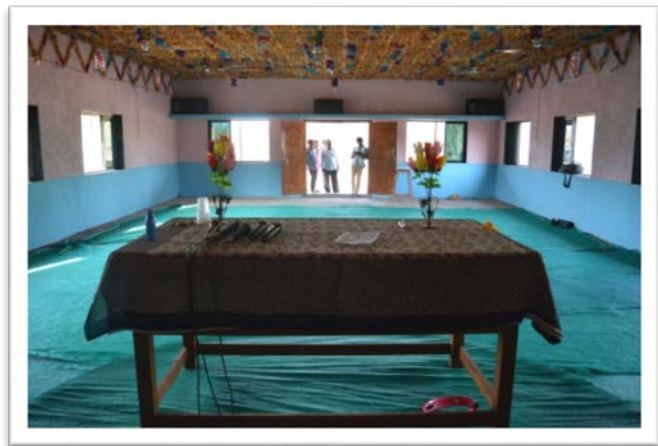

Bhurivel, Gujarat

Many people construct buildings because they want to show how big they are. Others do so because they expect people to come. NMM has always believed that when people are saved and added to the church, God too will provide the building. Bhurivel in Gujarat is an example for the above statement where a church sowed the seed

resulting in the founding of another church which grew to such an extent that they constructed by themselves, a place to gather and worship the Lord.

For the past ten years, this congregation was gathering to worship in a temporary prayer hut seating about 100 members. But God gave them the vision to construct a church building and with great sacrifice, the believers contributed the land. And now by the grace of God, we could help them complete a beautiful church building which has a seating capacity of 400 people. Pastor Lajras and the believers at Bhurivel are certain that God is able to fill the place with people.

Under the able leadership of Pastor Lajras, new believers are coming to the church with God performing signs and wonders among the people affirming their faith. With God's grace and providence, this church is growing day by day with regular prayer and worship.

Thank you so much for your help and support to build this building. May the Lord God of Israel, under whose wings you have come to take refuge, reward you fully for what you are doing.

Wish you can come out and visit this place and meet the precious people!!
